## Adult Formation Opportunity Brought to you by your parish

## The Biochemistry of Sex

A St. Therese Lecture Discussion Group

What happens when we fall in love?

Have we been told the truth about sex?

What are the biological

hang- ups with hook ups?

Date:

Time!

Location:

Contact:

Where are we going?

Is contraception dangerous?

> How are men forever changed by pregnancy?

Vicki Thorn shared her newest research on the biochemistry of sex and human bonding with us in February 2009.

She revealed amazing information on how we communicate by scent and how that impacts our behavior; how contraceptives change our bodies and our perception; why recreational sex is never without consequences; how women and men are changed in every sexual encounter.

This is a life changing lecture! Please join us to watch the DVD and discuss her talk.

Vicki Thorn is the founder of Project Rachel, the Catholic Church's Ministry for post-abortion healing, and the Executive Director of the National office of post-Abortion Reconciliation & Healing in Milwaukee, Wisconsin. An international expert and sought-after speaker on abortion recovery, she works with women and men recovering from abortion loss. This work led her

to research how humans fall in love and bond to each other. She is a trauma counselor, spiritual director, prenatal loss and bereavement facilitator. She and her husband have six children.
