

College Connection Program

Find the Catholic Faith on Campus

When our high school graduates attend college, their faith and moral life are often tested in this new environment. They need the support of campus ministries, Newman centers, and the Holy Mass.

But these ministries struggle to connect with Catholic freshmen. Many freshmen fail to seek the very support they need while privacy laws block the ministries from knowing a student's religious background.

College Connection Program makes it happen!

The U.S. Council of Serra developed a simple, effective program to help make the connection. The diocese seeks the names of its high school graduates and their colleges. Then, on behalf of the diocese, Serra notifies the campus ministries of the incoming Catholic students, allowing them to encourage student participation in Catholic life on campus.

The diocese's student list is intended only to communicate to the campus ministries and, otherwise, will remain confidential.

Parents of Graduates: We Need Your Help!

In order to complete this connection, we need some basic information: parish, student name, home address, name and location of the college. Please complete the Enrollment Form found at your parish office or enroll online:
